Nothing Better on the
Continent.

An American's Glowing Opinion of Calgary and Alberta.

To the Editor of The Herald:-
Sir: Having arrived home safe and sound and a few minutes to spare I thought fit justice to the people of Calgary and the great North West that treated me with so much hospitality and unbounded courtesy I would give you my opinion of your city and vicinity.

I went to Alberta as a delegate representing many families and friends who intend to locate there if my report were favorable, so I sought to make an honest investigation to determine the quality of your soil, severity of your climate, the magnitude of your crops, the demand for the produce, the adaptability of your laws to our people, the standard of your schools, and last but not least the character of your citizens, and we reported as follows:

No better land, no better climate, no better market, no better cattle, no better laws, no better schools, no better people and no prattier girls can be found on the continent of America. There is ample room for the merchant, the mechanic, the artisan, and abundance of room for every farmer that immigrates to your district. Nothing can stay the progress of Calgary, with its immense water power, excellent stone quarries, beautiful rivers of the best salmon, con-

The second capital of the great North West, will be your own city, (Calgary) which will shortly be a fact. While we miss street cars as we have them in the east, yet the time is bound to come, and the people are already asking: "When are we going to have street cars for Calgary?"

Finally we hope to be with you again shortly, and aid you in building up your city and vicinity

Yours truly,
HENRY HASKINS.
Duluth, Minn., February 15, 1901.
P. S.—The Canadian government
agent at Duluth, Minn., Mr. J. H. M.
Parker, has arranged for a lecture in
several places in this country where
I intend to speak and to tell the
people of the great advantages
Western Canada has to offer agricul-

THE HERALD

ESTABLISHED 1884.
 715 CALGARY HERALD CO. BLDG.
 J. J. Young, Managing Director.

A BUSINESS PROPOSITION.

Attention is directed to the letter of C. Schuch, which appears in another column of today's issue. It will be seen that a big industrial concern proposes starting business in Calgary before the assistance is offered by the forthcoming. The scheme is a good one and is well worthy of being pushed along. It is maintained that it will fill a want long felt in the west inasmuch as it will utilize and turn to profit what has hitherto been regarded as an idle loss. The company that proposes doing business is one that has millions of capital behind it and is well known over the Western States. It is said that the ranchmen take an interest in the business as a guarantee that they will support it. The assistance asked for is not in the nature of a loan, but the stock allotted will undoubtedly be a "good" gift from the assistance of the by-products of the farm and ranch is a small part of the business of the company. The chief work will be meat packing and when the great industries that have been built up in the Western American cities in this line have been established, the company will have a market for obtaining beef and pork and will be able to sell them at a profit. It is certainly seen as if there were a good market for the products of the ranchmen in Calgary. The chief work of the company will be meat packing and when the great industries that have been built up in the Western American cities in this line have been established, the company will have a market for obtaining beef and pork and will be able to sell them at a profit. It is certainly seen as if there were a good market for the products of the ranchmen in Calgary.

is a very careful editorial the Farmers' News comments somewhat adversely upon the assistance proposed. It says that it seems that the Manitoba government has set itself into a different position by assuming the landed independence of the Canadian Northern. It voices a fear that heavy for the local government and that the Dominion will be asked to take it over. This point out from an Ontario standpoint will be the most serious feature of the affair. The Farmers' News is right. There are many other points in the matter that the Dominion government are conducting a campaign and if it fails—as it must—then too late to railway reform for many a long day to come. The Canadian, particularly those of liberal predilection, have asserted that the introduction of the assistance is being seriously discussed in the Imperial House of Commons. The subject of assistance and standing has introduced the matter and the subject is attracting considerable attention. The idea of introducing assistance is being seriously discussed in the Imperial House of Commons. The subject of assistance and standing has introduced the matter and the subject is attracting considerable attention. The idea of introducing assistance is being seriously discussed in the Imperial House of Commons.

Subscription Blank
 Calgary, February 24, 1905.
 I hereby promise to pay to the Herald a subscription for the year 1905, at the rate of \$1.00 per annum, in advance, and to keep the same up to date. I am a resident of the City of Calgary, and my name is entered on the list of subscribers for the year 1905. I am a resident of the City of Calgary, and my name is entered on the list of subscribers for the year 1905.

THE REMOUNT QUESTION

WILL BE TAKEN UP BY THE HORSE BREEDERS ASSOCIATION.

There is Every Reason to Believe that the Scheme will be Successful.

J. M. McHugh, who like the majority of the stockmen in Alberta is actively interested in the scheme, proposed by the Herald to present their petition to the 12th inst. in which they also send a remount of sample North West horses to England for remount purposes, has received the following letter from C. W. Peterson, deputy commissioner of agriculture and secretary of the Horse Breeders' Association:

Office of the
 Territorial Horse Breeders' Ass'n
 Government Building
 Regina, Feb. 22nd, 1905.

Dear Sir: I am much obliged for your letter of the 12th inst. in which you enclose a clipping from the Calgary Herald regarding the scheme of presenting a horse to Lord Roberts. The meeting of the Horse Breeders' Association will be held during the early part of April, a day or so before the meeting of the Western Horse Show. You as a member will, of course, receive timely notice. Although I came forward as secretary of the association and offered to help the scheme along, I think the matter should be discussed at our next meeting and a committee appointed to take charge of it. I have not the slightest doubt as to your ability to get a reasonable amount of money for the scheme, but I think the matter should be discussed at our next meeting and a committee appointed to take charge of it.

Yours truly,
 CHAS. W. PETERSON,
 Secretary.

To J. J. McHugh, Esq.
 Calgary Alberta.

GLEICHEN.

Our winter is passing away like a dream. The snow is melting, the roads are becoming muddy, and the people are beginning to look forward to the spring. The winter has been a long one, but it is now over, and the spring is here.

Preparations for spring building are being made by collecting stones and bricks. The winter has been a long one, but it is now over, and the spring is here.

Three of the young men of Glenora go to the Calgary post were hoping to be accepted for the South African corps, but they have been rejected.

Business has been dull for a few weeks, but everyone looks for an early spring to end our mild winter. The post office at Newell is to be closed at once. A fortnightly mail will be sent and received for the present.

The cattle have come through the winter well on little feed but what they have eaten.

Mr. Viner is a very ardent fan of the Macdonald of Calgary case down south. He is a very ardent fan of the Macdonald of Calgary case down south.

Mr. Murray of Carleton bought a head of horses on the reserve and gave the bunch from there.

The business men of the town are very much interested in the situation. They are very much interested in the situation.

Due to increased business, Mr. Marshall is about to enlarge and improve his present premises as soon as the weather permits.

He is very much interested in the situation. They are very much interested in the situation.

He is very much interested in the situation. They are very much interested in the situation.

He is very much interested in the situation. They are very much interested in the situation.

He is very much interested in the situation. They are very much interested in the situation.

He is very much interested in the situation. They are very much interested in the situation.

He is very much interested in the situation. They are very much interested in the situation.

THE LIVE STOCK MARKET

LIVE STOCK PRICES

Winnipeg. Cattle so far as beef cattle are concerned there is practically nothing doing here and dealers are not paying much attention to the market. The opinion is generally held that beef cattle are scarce and some expect to see a considerable number imported before the new season opens. Stockers are being bought in large numbers for shipment. There are worth \$14 to \$15 per head for yearlings, \$18 to \$22 for two year olds. Beef cattle are worth from \$1.15 to \$1.25 per pound here.

Sheep. Market somewhat. Hogs. The market for dressed hogs is steady at last week's price. Best hogs are worth \$1.25 per 100 pounds. Inferior lots are running at 4.12 to 5.00.

Milk Cows. There is not much demand for cows and the market is almost nominal. From \$5 to \$10 almost represents the value.

Horses. There is very little demand for horses at present and the market is quiet. Hatter broken broodmares are worth from \$55 to \$125, according to weight and quality.

Receipts at the meat markets yesterday were 80 cars, including 100 sheep and hogs, and 120 cars of cattle. Market generally dull. Export cattle. The following heavy cattle were sold: 100 head of heavy cattle, 100 head of heavy cattle, 100 head of heavy cattle.
